OFFICIAL TRAVEL AGENCY OF THE GENERAL MEETING

# Second Notice

Twenty-Eighth Annual National Ge

The following are some final details for the upcoming Canadian Federation of Students & Canadian Federation of Students-Services national general meeting scheduled for Wednesday, November 25 to Saturday, November 28.

## Delegate Registration

If you haven't done so already, please submit delegate registration forms right away as accommodation and travel arrangements need to be finalised. Please note that if general meeting registration and travel pool fees are not received prior to the meeting, your registration may be rejected.

## Travel Arrangements

As with all Federation national general meetings, travel arrangements for the meeting are being made by the national and provincial offices. By now you should know the details of the travel arrangements that have been made for you. To confirm details and for answers to any last minute questions, consult your regional office or the contact person listed below:

For those driving to the meeting, a map illustrating the route through Ottawa has been included. If you would prefer to receive the map by e-mail in PDF format, please contact the Federation's national office at 613-232-7394.

The Federation will be coordinating airport, train station, and bus depot pick-ups and transportation to the meeting site; however, in the event that no one meets you when you arrive at the Ottawa airport/train station/bus depot, please call the national office at 613-232-7394 for instructions.

If using surface travel to the general meeting, please check in advance with the designated contact person that the cost will fall within the approved limits. **The Federation will only reimburse for costs not exceeding the limits established in advance of the meeting.** In order to be reimbursed for travel expenses, such as train and bus fares, receipts must be submitted. Please note that credit card slips will not be accepted as proof of purchase.

## Accommodation

Delegates will be staying at the Best Western Jacques Cartier at 131 Rue Laurier, in Gatineau, on the North side of the Ottawa River directly across from downtown Ottawa. The hotel's phone number is 819-770-8550, the fax number is 819-770-9705.

## Childcare

The Federation works to reduce physical and financial barriers for delegates selected to represent their unions at Federation national general meetings. For those delegates who are parents or guardians, the Federation compensates for additional childcare costs incurred as a result of attending the general meeting. Such childcare costs must be pre-approved by the Federation. If you are seeking a childcare subsidy to attend the national general meeting, please submit your application by telephone or email to the national office.

## Provincial Meetings

Several affiliated provincial organisations have scheduled meetings for the day before the official start of the national general meeting. Member unions from the following provinces should confirm attendance with their respective provincial offices:

CFS-British Columbia

19:00-22:30, Tuesday, November 24

09:30-12:30, Wednesday, November 25

CFS-Manitoba

### **Elections at the General Meeting**

As described in the first notice for this meeting, there will be elections for the following positions:

- National Chairperson (2010-11)
- National Deputy Chairperson (2010-11)
- National Treasurer (2010-11)

There will be also be a by-election to fill the vacant Alberta and Quebec Representative positions on the National Executive for the remainder of the 2009-10 term.

For more information about the responsibilities of National Executive members, check Bylaws V, VI, and Standing Resolution 20 in your Federation Bylaw/Policy binder.

### **Included in this Package**

- **Motions Submitted with Due Notice**

In order to be considered at the general meeting, some resolutions require advance notice. In accordance with Bylaws 3.1a and Bylaw 25.2, motions that have been submitted with due notice are included. They can be found in the draft opening plenary agenda.

- **Draft Budget**

In accordance with Operations Policy, a first draft of the 2009-10 revised budget is included. A more detailed draft will be included in the delegates' kit distributed at registration.

### **Things to Bring / Take Back**

Please bring:

- **Valid I.D.**

Some social events throughout the general meeting will take place at local venues. In order to enter the premises, you must have valid government photo ID that verifies your age.

- **Policy Binder**

Be sure to bring your local's Federation Bylaws/Policy binder. You should have a copy in your students' union office (It has a black cover with white printing).

At the meeting, each delegate will be supplied with a 1.5" thick binder to hold general meeting documents. Please leave room in your luggage to take your binder back to your local union office after the meeting.

In the case of large delegations not requiring more than a few binders for their unions, general meeting documents can be made available in accordian folders. Please email [internal@cfs-fcee.ca](mailto:internal@cfs-fcee.ca) with the names of any members of your delegation who should receive general meeting documents in an accordian folder.

### **For More Information**

If you have any questions, please call your provincial/regional office of the Federation or the national office at 613-232-7394.

October 27, 2009

Dear members,

Please find enclosed the second notice for the 28th annual general meeting.

In early October, the Post-Graduate Students' Society of McGill University (PGSS) submitted motions for consideration at the upcoming general meeting. The Students' Society also circulated the proposed motions to member locals, several non-member students' unions, university administrators and a variety of groups with which the Federation works (such as labour unions, social justice organisations, education section groups).

At the time I expressed serious concern that a number of the statements were false and malicious and about the potential impact these statements could have. The National Executive shares these concerns and ultimately has a responsibility to ensure that material that is false and libelous is not circulated in the form of a motion or otherwise. Republishing the offending clauses would be irresponsible stewardship of the organization and a disservice to the membership.

In addition, the National Executive has contractual obligations to employees that would have been violated by the inclusion of one of the motions served by the Post-Graduate Students' Society of McGill University (PGSS); therefore, that motion has been omitted as well.

To that end, upon consultation with the Federation's legal counsel, the National Executive has removed a number of clauses that are false and/or libelous; however, all other motions, regardless of merit, are included for the consideration of the membership.

If you have any questions, please do not hesitate to contact me.

In solidarity,

Katherine Giroux-Bougard  
National Chairperson

# **AGENDA**

## **Opening Plenary**

November 2009 National General Meeting

---

### **1. ATTENDANCE ROLL CALL**

The Federation's Bylaws require that no less than one-half of the voting members of the Federation having voting rights be present in-person or by-proxy at the general meeting for business to be conducted. A roll call of the voting members will be taken to determine attendance and to confirm that a quorum of voting members is present.

### **2. ANNOUNCEMENT OF PROXIES**

A voting member that is unable to attend some or all of the general meeting may appoint another voting member to act as its proxy at the meeting in accordance with Bylaw III. Any appointments will be announced at this time.

### **3. RATIFICATION OF PLENARY SPEAKER**

The plenary is the formal decision-making assembly at the general meeting. A Plenary Speaker chairs general meeting plenary sessions.

### **4. WELCOMING REMARKS AND INTRODUCTIONS**

### **5. ADOPTION OF THE PLENARY AGENDA**

The plenary will consider the plenary agenda prepared by the National Executive. Any changes or additions to the agenda may be proposed at this time.

### **6. ADOPTION OF THE NATIONAL GENERAL MEETING AGENDA**

The plenary will consider the proposed schedule for the four days of the general meeting. Any changes or additions to the agenda may be proposed at this time.

### **7. ADOPTION OF THE NATIONAL GENERAL MEETING MINUTES**

The plenary will consider the minutes of the previous national general meeting.

### **8. OVERVIEW OF PROCEDURES**

- a. Rules of Order and Plenary Procedures
- b. Anti-Harassment Procedures for the General Meeting
- c. Presentation by the Federation's Staff Relations Officer

### **9. PREPARATIONS FOR ELECTIONS**

- a. Introduction of Electoral Officers
- b. Overview of Election Schedule and Procedures

The Electoral Officers will provide an overview of the election schedule and procedures at this time.

**10. ADOPTION OF STANDING PLENARY SUB-COMMITTEE AGENDAS**

As per Standing Resolution 1, Section 1, the following plenary sub-committees and forum are automatically struck:

- Budget Committee;
- Campaigns and Government Relations Forum;
- Organisational and Services Development Committee; and
- Policy Review and Development Committee.

The plenary will consider the plenary sub-committee and forum agendas prepared by the National Executive. Any changes or additions to the agendas may be proposed at this time.

**11. CONSIDERATION OF MOTIONS SERVED WITH DUE NOTICE**

The Federation Bylaws require that all motions that seek to amend the Federation's Bylaws and Policy Manual or undertake campaigns be submitted no fewer than six weeks prior to the general meeting at which they are to be considered.

**a. Motions Submitted by Member Locals**

The following motions were served by member locals with notice and shall be considered at the meeting.

2009/11:N01

**MOTION**

Local 108/

Whereas tuition fees are a major barrier for any individual desiring a higher education, forcing students to pick between debt or no education at all; and

Whereas forcing Collège d'enseignement général et professionnel (CÉGEP) students into debt before they even reach university, can only do harm to Québec society; and

Whereas the accessibility of post-secondary education in Québec is something to protect and work toward improving; and

Whereas tuition fees at the CÉGEP level would constitute a break with Québec's proud tradition of offering the most accessible post-secondary education in the country; and

Whereas the CEGEP system has served as the only model of a near universally accessible system of post-secondary education in Canada; therefore

Be it resolved that any attempt at imposing tuition fees for Collège d'enseignement général et professionnel (CÉGEP) students be opposed.

2009/11:N02

**MOTION TO ADOPT POLICY**

Local 11/

Be it resolved that the following Issues Policy on "Poverty" be adopted:

**Preamble**

The Federation recognises that conditions of poverty affect access to and quality of post-secondary education. High tuition fees and inadequate student financial aid prevent those living in poverty from entering a post-secondary education program or completing their studies. Parental educational attainment is also a strong factor of a dependent's ability to attend and pay for post-secondary education further contributing to inaccessibility. A lack of access reinforces a cycle of poverty.

Poverty is an affront to human dignity and disproportionately affects communities that are already marginalized, including Aboriginal peoples, women, racialised people, people with disabilities, seniors, queer people, transgendered people and immigrant and non-status people and sole support parents.

The Federation recognises that many individuals who live below the poverty line are working one or more jobs and are considered to be the 'working poor'. This includes a large proportion of students who work either part- or full-time, often for a minimum wage, to pay for their education.

Chronic underfunding of social services such as post-secondary education, healthcare, public housing, social assistance and childcare, coupled with a widespread lack of food security, and the absence of a living wage have contributed to the spread of poverty. This is especially true during times of economic hardship. The long-term cost of poverty, such as the strain on the healthcare system and elevated crime and incarceration rates, far outweighs the cost of investing in social services that help to prevent and alleviate poverty.

The Federation recognises that current levels of various forms of assistance are inadequate and believes that it should not be necessary to combine forms of assistance in order to live above the poverty line.

The Federation recognises that there is a negative view of individuals receiving government assistance in most forms, and that this has led to the implementation of regressive measures such as discriminatory fraud reporting mechanisms.

In addition, those receiving social assistance and government loans to fund a post-secondary education will often have that amount clawed back from their social assistance. Claw-backs further reinforce a cycle of poverty and prevent skills development.

Furthermore, the Federation believes that access to housing and food security, and an income that is adequate are basic human rights. The Federation therefore calls for a minimum income level for individuals, regardless of employment status, that is above the generally-accepted measurement of poverty, i.e. the Low-income Cut Off (LICO) published by Statistics Canada.

#### **Policy**

The Federation Supports:

- the development and implementation of poverty reduction strategies at both the federal and provincial level that involve consultations with communities where poverty is prevalent, includes firm targets and timelines, and include significant financial commitments to social services such as education, healthcare, housing, social assistance and childcare; and
- federal support for provincial, territorial, municipal and Aboriginal governments in their efforts to address poverty in their communities and the root causes of that poverty; and
- additional targeted measures to alleviate poverty amongst marginalised communities that experience disproportionate rates of poverty; and
- the establishment of a standard minimum living wage which allows workers and their families to have a decent quality of life and to participate fully in society on the most equal basis possible; and
- social assistance rates that allow for an individual or family to live in dignity and above the poverty line; and
- the recognition of and promotion of the fact that poverty is a result of economic policy and not individual or personal responsibility.

The Federation Opposes:

- Harmful stereotypes about people living in poverty or receiving social assistance as lazy, irresponsible or inferior; and
- government cuts to social assistance measures that serve to convert public debt into private debt and poverty, thus widening the gap between rich and poor; and
- clawbacks of social assistance, employment insurance, child benefits and student assistance based on other earnings; and
- government legislation that reduces or eliminates access to bankruptcy processes; and
- government regulations that prevent individuals enrolled in a university or college program from receiving Social Assistance; and
- the removal of basic funding for people with disabilities.

Whereas data collection on graduate student completion rates and post-graduation employment is critical to understanding how many Master's and Doctorate students abandon their studies, their reasons for doing so, and the impact of hiring freezes upon post-graduation employment; and

Whereas a lack of standardised and available data in this area makes it nearly impossible for this information to be gathered by researchers; and

Whereas this data would allow for research to be conducted on how many students finish their Master's or Doctoral studies and how many go on to jobs within the post-secondary sector; and

Whereas this information is particularly critical in a time where faculty hiring freezes and institutional cut backs are threatening the ability of current students and newly graduated Master's or Doctorate holders to gain permanent or tenured employment within the post-secondary education sector; therefore

Be it resolved that a polling firm be contracted to study the completion rates of post-graduate students, including how many continue to work at Canadian colleges and universities after graduation; and

Be it further resolved that data also be collected on the length of time it takes for recent graduates to secure full-time faculty positions, and

Be it further resolved that data also be collected on the employment type, job security, and relevance to their field of study of post-graduate master's and doctoral students, as well as whether they are working in their desired profession; and

Be it further resolved that coalition partner support be solicited to help facilitate the study, including investigating the possibility of sharing the cost of the study.

2009/11:N04

### MOTION TO ADOPT POLICY

Local 19/

Be it resolved that the Issues Policy on "Research Councils" be amended to read:

#### Research Councils

##### Preamble

Independent research, free of influence from powerful interests, is critical to both scholarly inquiry and research integrity. Political or corporate interference can undermine the peer review process and threaten the principle of academic freedom—a key foundation of public post-secondary education.

The Natural Sciences and Engineering Research Council (NSERC), Social Sciences and Humanities Research Council (SSHRC), and the Canadian Institutes for Health Research (CIHR), also known as the Tri-Councils, provide the majority of public funds for research in Canada. The Canada Council for the Arts provides funding to artists and arts organisations. These councils are mandated to "promote the highest standards of research excellence." Public funding for research, scholarly, and artistic activities is integral to a strong Canadian intellectual and cultural fabric.

Increasingly, governments are placing direct and indirect pressure on granting councils to fund research and art that is politically agreeable to the government. Governments have also increasingly shifted funding support to favour industry-partnered research and research that is commercialisable over other types of research. This commercial bias can take the form of creating incentives for doing industry oriented research, making the councils justify themselves in terms of the economic growth they generate, and direct contact with granting council officials about funding decisions they have made.

Federal government policies that offer incentives to commercialise research increase the pressure to produce private, for-profit research in public post-secondary education institutions. This shift has influenced the mandates of the granting councils to increasingly support for-profit research. The commercialisation of research poses threats to the ability of researchers to participate in curiosity-driven or basic research that does not have an immediate commercial interest, but which can nonetheless make important contributions to society and the economy. A funding agenda that favours commercialisable research also poses threats to research integrity and to basic and exploratory research.

In addition, although the majority of students and faculty study and teach in the social sciences and humanities, funding to SSHRC is significantly lower than the funding provided to the other two tri-councils. This suggests a funding bias that disadvantages the social sciences and humanities.

### Policy

The Federation supports:

- a peer-reviewed, accountable and transparent system for allocating grants;
- public funding for research supported by the granting councils;
- adequate and sustained public funding for artists supported by the Canada Council for the Arts;
- equitable distribution of granting council funds among disciplines and institutions;
- adequate allocation of granting council funds for basic research;
- granting council research funding provided to support public, as opposed to private, interests;
- granting councils that uphold the highest standard of research by explicitly supporting the role of whistleblowers through the enactment of whistleblower protection policies; and
- independence of the research granting councils from political and government influence.

The Federation opposes:

- political and government influence over research and research funding;
- threats to the peer-reviewed, accountable and transparent system for allocating grants;
- reductions in public funding for research supported by the granting councils;
- inadequate and unpredictable public funding for artists supported by the Canada Council for the Arts;
- inequitable distribution of granting council funds among disciplines and institutions;
- inadequate allocation of granting council funds for basic research; and
- granting council research funding provided to prioritize private for-profit interests, rather than public interests.

2009/11:N05

#### MOTION

Local 78/

Whereas Open Access promotes making scholarly material available online for anyone to read or use free of charge; and

Whereas the majority of published research is funded by the public through government granting agencies so it is unreasonable for the public to pay again, through user fees, to gain access to this research; and

Whereas the University of Toronto library is now charging visiting scholars and students \$200 per year for borrowing (and in some cases browsing) privileges at its Robarts Library, thereby placing a greater strain on online material; and

Whereas the US-based Scholarly Publishing and Academic Resources Coalition (SPARC) issued a «Right to Research Statement» ([www.righttoresearch.org](http://www.righttoresearch.org)), calling on Canadian and American Universities, Researchers, Governments, and Research funders to actively support Open Access with the goal of starting a North American campaign on this issue; and

Whereas the content of the Statement mirrors the Federation's position on scholarly publishing, notably, calling on Canadian and American research funders and governments to ensure Open Access to all publicly funded research; and

Whereas the National Graduate Caucus signed the statement on July 7, 2009; therefore

Be it resolved that the «Right to Research Statement» be endorsed; and

Be it further resolved that member locals be encouraged to endorse the «Right to Research Statement»; and

Be it further resolved that updated campaign materials be distributed to member locals.

2009/11:N06

#### MOTION

Local 78/

Whereas the Federation was created to be a national association of individual students; and

Whereas the individual student members are represented in the Federation at national meetings by their respective local student unions known within the Federation as the voting members; and

**PAGE 6 – OPENING PLENARY AGENDA**

28<sup>th</sup> Annual National General Meeting of the Canadian Federation of Students(-Services)  
Wednesday, November 25 to Saturday, November 28, 2009

---

Whereas the voting members have resolved to vest in the individual members all authority to decide questions of membership, including the initiation of any referendum on the question of continued membership; and

Whereas the bylaws currently provide for a referendum on the question of continued membership to be initiated by a petition signed by 10 percent of the individual members; and

Whereas this approach, aimed at greater grassroots democracy within our Federation, seems to be open to abuse; and

Whereas, based on the information reported in the student press concerning the campuses in question, as few as 12,000 signatures could result in 10 referendums; and

Whereas evidence indicates that this is a coordinated plan to destabilize our Federation by a small group of individuals, including some non-members; and

Whereas evidence indicates that as part of this coordinated effort to destabilize our Federation the organizers of the petitions intend to submit them all on the same day in an effort to force the various referendums to be held within the same, small window of time; and

Whereas the Bylaws contemplate the Federation and its members having the opportunity to present a case for continued membership in any referendum campaign; and

Whereas forcing all referenda to be held within the same, small window of time is fundamentally anti-democratic because the Federation and its members would have no reasonable opportunity to present a case for continued membership in the Federation; and

Whereas the enormous task of trying to present the case for continued membership in so many referendums within the same, small window in time would inevitably detract from the Federation's normal duty of providing representation and services.

Whereas the interests of students in Canada are best served by having a strong and stable national association; therefore

Be it resolved that the reference to "ten percent (10%)" in Bylaw 1, Article 6.a. be amended to read "twenty percent (20%)";

Be it further resolved that Bylaw 1, Article 6.b. be amended to read:

**b. Schedule**

- i. Within 90 days of receipt of the petition described in Bylaw 1, Section 6.a, the National Executive will review the petition to determine if it is in order and, if it is, in consultation with the member local, will schedule a referendum that is not less than 60 days and not more than 90 days following, notwithstanding the provisions in Section 6.b.ii and 6.b.iii, and subject to the following conditions:
  - there shall be no fewer than two (2) and no greater than five (5) days of voting; and
  - there shall be no less than seven (7) days and no greater than 21 days for campaigning, during which classes are in session, immediately preceding and during voting.
- ii. No vote on continuing membership may be held between:
  - April 15 and September 15; and
  - December 15 and January 15.
- iii. There shall be no more than two (2) referendums on continued membership in any three-month period.
- iv. No referendum on continuing membership shall take place without compliance with Sections 6.b.i, 6.b.ii and 6.b.iii.

Be it further resolved that Bylaw 1, Articles 6.k. and 6.l., be amended to read:

**k. Minimum Period Between Continued Membership Votes**

In addition to required compliance with Sections 6 a. to 6 j. and 6 l., in order for a referendum on continued membership to take place, no referendum on continued membership may have been held within the previous sixty (60) months for voting members comprised of university students and thirty-six months for voting members comprised of college students, unless waived, by a two-thirds (2/3rds) majority vote of the National Executive.

**I. Minimum Period Between Vote to Federate and Vote on Continued Membership**

In addition to required compliance with Sections 6 a. to 6 k., in order for a referendum on continued membership to proceed, a referendum to join the Federation may not have been held within the previous sixty (60) months for voting members comprised of university students and thirty-six months for voting members comprised of college students, unless waived, by a two-thirds (2/3rds) majority vote of the National Executive.

2009/11:N07

**MOTION TO AMEND STATEMENT OF PURPOSE**

Local 24/

Whereas the work of the Canadian Federation of Students has expanded to include the issues and needs of international students on both college and university campuses; and

Whereas the founding premise of the Canadian Federation of Students is for public, accessible and the right to a post-secondary education of all students;

Whereas international students play an important role in the work of the Federation and should have equal voice and representation; therefore

Be it resolved that the article 2 of the Statement of Purpose be amended to read:

2. to represent, promote and defend the common interests of students studying at Canadian post-secondary institutions;

2009/11:N08

**MOTION TO ADOPT POLICY**

Local 24/

Be it resolved the following Issues Policy on "Credit Transfer" be adopted:

**Credit Transfer**

**Preamble**

For a variety of reasons, many students who start a post-secondary diploma or degree at one institution may choose to finish it at another institution. Changing market demands and new programmes offered by colleges and universities have also lead to an increase in the number of students who chose to supplement a diploma or degree with a second designation. While some provinces responded to a marked increase in the level of inter-institutional cooperation by establishing provincial regulations to ensure that programmes remain congruent, most others have not and the Federal government has made no effort to coordinate the standardisation of credit transfer between provinces. In the absence of a province-wide or a federal initiative to facilitate the articulation, transfer and admissions arrangements among degree and diploma granting institutions, hundreds of agreements had emerged between colleges and universities. While this rapid emergence of inter-institutional cooperation has improved educational opportunities, it has also lead to increased confusion, inconsistency and duplication.

As a result, students are often left to try and navigate a system where programmes may be offered at separate institutions, guided by separate policies or, when transferring from one institution to another, forced to negotiate on their own which credits will be recognised. Due to the ad hoc nature of these agreements, many students find themselves paying for and earning the same credits more than once, adding to additional costs for the student and the government.

To help ensure that students are able to move as easily as possible from institution to institution, a mandatory system of credit transfer needs to be created.

**Policy**

The Federation supports:

- Maintaining clear, transparent and predictable pathways to learning;
- Enhancing student mobility through the creation of a mandatory, credit transfer system;
- Provincial frameworks for credit transfer that fit into a broader pan-Canadian system;
- The promotion of accurate and fair prior-learning assessment that also recognises institutional autonomy;
- Eliminating unnecessary duplication of learning and related inefficiencies in public spending;
- The generation of standardised assessments of credits, diplomas and degrees;

## PAGE 8 – OPENING PLENARY AGENDA

28<sup>th</sup> Annual National General Meeting of the Canadian Federation of Students(-Services)

Wednesday, November 25 to Saturday, November 28, 2009

---

- The creation of a system that prioritises block transfers over credit-to-credit transfer;
- The creation of a body to oversee and review the progress of a credit transfer system; and
- Adequate funding to ensure the maintenance and success of a credit transfer system.

The Federation opposes:

- Agreements that undermine a students' ability to transfer between institutions of her or his choice;
- The creation of a credit transfer system without the adequate funding needed for operational success; and
- A credit transfer system that is optional for universities and colleges to participate in.

2009/11:N09

### MOTION TO AMEND POLICY

Local 24/

Whereas the Federation currently has policy on commercialisation on campuses but the extent and intervention of commercialization within post-secondary institutions has dramatically grown throughout the years and there has been a loss of public space and a surplus of commercial involvement and encroachment in the classroom, therefore

Be it resolved that the Issues Policy "Commercialisation" be amended to include the following:

3. when it enshrines benefactors on to buildings, objects, public space, departments, faculties or schools; and
4. the inclusion of corporate ads in course textbooks or mandatory equipment for classes

2009/11:N10

### MOTION

Whereas many Canadians have lost their jobs and need to access Employment Insurance (EI) as a result of the recession; and

Whereas the replacement income provided through EI ranks among the lowest of the OECD countries; and

Whereas current EI recipients will run out of benefits before February 2010, when estimates forecast that Canada's unemployment rate will have risen to 10.5 percent; and

Be it resolved that a fact sheet be produced about tuition fees, student debt and the economy that outlines how spending on post-secondary education can help stimulate the economy, and further that it highlight the economic benefits associated with a highly educated workforce and refutes the idea that government and administrators should increase tuition fees in a time of economic downturn; and

Be it further resolved that member locals be encouraged to hold public forums or town halls about tuition fees, student debt and the economy to educate our membership and debunk economic myths for the purpose of highlighting the need to increase government funding into post-secondary education and to drop tuition fees for all students.

Whereas in recent years there have been a number of instances of interference and attempted interference in the affairs of students' unions by politically motivated college and university administrators; and

Whereas political parties have also been exposed while attempting to interfere in the democratic processes of students' unions; and

Whereas in the absence of Right to Organise legislation, students' unions still require protection from interference; and

Whereas all these factors relate directly to the autonomy of students' unions; therefore

Be it resolved that the Issues Policy "Students' Right to Organise" be renamed "Students' Union Autonomy" and be amended to read:

**Students' Union Autonomy**

**Preamble**

Students' unions' ability to provide representation and high-quality services for their members depends, in large part, on their ability to receive membership fees and to conduct their work autonomously.

While students' unions in British Columbia and Québec have strong legislation that recognises their right to organise and ensures their financial and democratic autonomy, students' unions in other provinces exist without formal government recognition or protection. As such, for the majority of students' unions in Canada, the legal rights collection fees only exist in common law. In the absence of clearly defined legal rights, students' unions in much of Canada secure rights and powers from their respective institutional administrations by entering into individual contracts or agreements.

However, in order to represent the views and defend the interests of their members, students' unions must, from time-to-time, take positions that are critical of the decisions or actions of campus administrations, governments, external political parties, or other relevant

organisations and bodies, without fear of reprisals in the form of the withholding of funds or the eviction from space. In the absence of legislation protecting the students' union autonomy and right to organise, students' unions are vulnerable to interference from campus administration, governments and external political parties, and are in constant threat of having their funds withheld by politically motivated college and university administrations.

**Policy.**

The Federation supports legislation that:

- defines students' unions as autonomous entities whose operations are subject only to the laws that govern not-for-profit corporations;
- mandates the collection and remission of membership fees to students' unions by university and college governing bodies and guarantees this right of remission without interference from institutional administrative bodies;
- enshrines students' unions' full financial and operational autonomy, including the ability to hire and manage staff, set fees, prepare financial statements, arrange for audits, and enter into arrangements with external service providers;
- enshrines students' unions' full democratic autonomy, such as the ability to set and administer referendum and election rules, define membership, and maintain policies and bylaws;
- recognises only member-driven students' unions as the official student voice on campus, in Canada and prohibits any post-secondary education institution administration, provincial or federal government, governmental or quasi-governmental agency, external political party, or any agent or representative thereof, from selecting, appointing, overseeing or administering the election of student representatives to institutional and governmental bodies of any kind, including commissions, consultations, or any other advisory or decision-making body; and
- guarantees access to relevant, accurate membership lists and associated contact information for all campus, provincial or national students' unions.

The Federation opposes:

- the recognition of any individual student or student group that is not elected by students or appointed by an officially recognised member-driven students' unions as a student representative for the purpose of representing the needs or interests of students on any institutional and governmental body of any kind, including commissions, consultations, or any other advisory or decision-making body;
- any legislation, policy or action on the part of any post-secondary education institution administration, provincial or federal government, governmental or quasi-governmental agency, external political party, or any agent or representative thereof, that undermines students' union autonomy, right and ability to organise, or ability to work collectively in broader coalitions and with other organisations;
- interference by any post-secondary education institution administration, provincial or federal government, governmental or quasi-governmental agency, external political party, or any agent or representative thereof, in students' union financial or operational affairs or democratic processes, including meetings, elections and referenda; and
- any criteria or conditions put in place by college and university administrations as a prerequisite for setting, collecting and remitting membership fees.

**MOTION TO ADOPT POLICY**

Local 68/

Be it resolved that the Issues Policy "Funding for Post-Secondary Education" be amended to read:

**Funding for Post-Secondary Education**

**Preamble**

Deep cuts to college and university operational during the 1990s led to a dramatic shift in how public post-secondary education is funded in Ontario. For example, in the early 1990s, students contributed roughly 21 percent of university operating budgets through tuition fees but, by the end of the decade, the student contribution had risen to an average of 47 percent. At some institutions it had reached 50 percent. During this time period, Ontario's professor-

student ratio had risen significantly, making it the worst in the country and significantly worse than the American average.

Increases in tuition and ancillary fees, therefore, have not elevated the quality of post-secondary education because both affordability and quality are directly linked to adequate public funding.

Adequate, stable and predictable long-term public funding allows post-secondary education institutions to realise their academic mission without pitting access against quality. Furthermore, it allows institutions to develop long-range plans and hire full-time, permanent faculty.

As a result of flawed government funding formulae, deep funding disparities have developed between public post-secondary education institutions that entrench inequities into the system. The disparity in funding between the number of students enrolled and the per-student funding received by the institution continues to grow. For example, it has resulted in the emergence of a cohort of students in Ontario's post-secondary education system, concentrated in a select number of newer and rural institutions, who are unfunded by the provincial government.

More and more frequently, Federal government funding for provincial social programs such as post-secondary education come in the form of one-time funding that is unpredictable and does not allow for investment in multi-year expenditures, like faculty recruitment and retention. On occasion, such funding displaces provincial funding that is not reinvested in the system in order to elevate overall funding for post-secondary education.

#### **Policy**

The Federation supports:

- full public funding of post-secondary education;
- strong, stable and predictable multi-year funding;
- funding that enshrines and respects the academic autonomy of public post-secondary education institutions;
- funding that ensures that the maintenance and improvement in education quality is not pitted against accessibility;
- a funding formula that is sensitive to population increases;
- a funding formula for post-secondary institutions that accounts for the province's transitional student population;
- public funding that is free from market-oriented strings, conditions or requirements;
- the equitable distribution of basic operating funding for all province's post-secondary education system;
- a government funding formula for operating grants that leaves no students unfunded;
- the equalisation of Basic Income Unit ratings between programmes and the equitable distribution of government funded external grants across disciplines;
- dedicated funding for northern, rural and remote campuses to address the unique challenges of attracting students and the additional costs of programme delivery in such locations;
- adequate funding that reflects the unique and important role of provinces' community college system;
- equal funding for Aboriginal institutions;
- formal inclusion of accountable, transparent, and democratic student representation in provincial funding formula review processes; and
- provincial government publicly rejecting any federal policy implementing cutbacks in fiscal transfer payments.

The Federation opposes:

- public funding that is contingent upon political influence over course curricula, programme design or other aspects of the academic mission of the institution;
- public funding that is contingent upon private sponsorship, donations, or commercial objectives;
- funding frameworks that discriminate between institutions and programmes and impose competition between public institutions and their programmes;
- post-secondary education funding based on any assessment of the qualitative statistics of individual post-secondary institutions, including key performance indicators; and

### MOTION TO ADOPT POLICY

Local 68/

Be it resolved that the Issues Policy "Employment" be renamed "Student Employment" and amended to read:

#### Student Employment

##### Preamble

As tuition fees have been allowed to increase, access to post-secondary education has become more and more limited. In contrast to the past, students are no longer able to pay for their education by working full-time at minimum wage over the summer. Currently, many students across Canada are required to work several part-time jobs throughout the academic term in order to pay for their education. Those students who are fortunate enough to find employment, are rarely able to do so in a field that is related to their studies and many are faced with low wages and poor working environments that offer few benefits and sometimes unsafe conditions.

Where limited government funding does exist to promote student employment, such programmes are restricted to domestic students and exclude international and non-status students. Furthermore, many students who are working in unpaid work placements or internships are not eligible for worker's compensation or Employment Insurance. In Ontario, for instance, the Pay Equity Act that is supposed to ensure equal pay for work of equal value, is not always enforced.

These issues leave many students economically disadvantaged, unable to afford their studies and vulnerable to exploitation in the labour force.

##### Policy

The Federation supports:

- the right of all people, including students, to meaningful employment and equal pay for equal work;
- the creation of meaningful employment opportunities for students that complement their field of study;
- the right of international students to work off campus;
- government funded student employment programmes, including summer employment programmes, that are accessible to full and part-time students, regardless of their citizenship status or immigration status;
- Provincial Governments paying Worker's Compensation Board premiums for students on unpaid work placements or internships;
- the eligibility of students who have completed an unpaid work placement or internship for Employment Insurance;
- the coverage of all student employment under the standards set out in the Employment Standard Act;
- a provincial minimum wage that provides a living wage and ensures that no working person is living below the poverty line;
- student employment programmes that pay wages above the provincial minimum wage; and
- freedom from discrimination in employment as set out by provincial Human Rights Commissions.

The Federation opposes:

- labour without financial compensation, as part of the post-secondary education curriculum;
- the use of government funding schemes, like work-study, that exploit student labour to displace full-time unionised or permanent positions;
- discrimination in employment against students on the basis of type of study;
- discrimination in employment against any people, including students, on the basis of citizenship or immigration status;
- the exclusion of students from eligibility for government funded employment programmes based on their type of study, citizenship, or immigration status; and
- any other forms of discrimination in employment.

**MOTION TO ADOPT POLICY**

Local 98/

Be it resolved that the following Issues Policy "Flat Fees" be adopted:

**Flat Fees**

**Preamble**

Flat fees, also referred to as "Programme Fees" are standard tuition fees charged to students for enrolment in a minimum number of courses or in particular programme or faculty, regardless of the actual number of courses taken. Under a flat fee model, students who take less than the institutionally-defined maximum course load are still charged for it. For students who do not or cannot take a full course load, the implementation of flat fees can represent enormous tuition fee increases, effectively side-stepping governmental tuition fee regulation. For students who already face multiple barriers to accessing post-secondary education, such as students with disabilities, students who are parents or caregivers, and students who are economically disadvantaged and have to work during the school year, flat fees represent another financial barrier. Flat fees also create a financial disincentive for active engagement in extra-curricular activities on and off campus, as well as penalising students who may wish to enrol in fewer courses in order maintain a higher academic average.

Post-secondary education institutions have used this tuition fee model as a way to offload their debt, incurred due to bad investment policies or chronic governmental underfunding, onto students.

**Policy**

Where tuition fees do exist, the Federation supports:

- Greater flexibility in course selection and increased accessibility of post-secondary education through the assessment of tuition fees strictly on a per course basis; and
- Students' right to determine the rate at which they complete post-secondary programmes without being financially penalised for taking less than an institutionally-determined full-time course load.

Where tuition fees do exist, the Federation opposes:

- Flat tuition fee structures that charge a standard fee for enrolment in a minimum number of courses, or a particular programme or faculty, regardless of the actual number of courses taken;
- The downloading of public underfunding, institutional debt, or financial mismanagement onto students in the form of fee structures that charge for courses students may not take;
- Fee increases that side-step governmental tuition fee regulation by exploiting loopholes, such as a lack of prohibition against implementing flat tuition fees;
- The application of tuition fee structures that create an economic disincentive for students to be actively involved in their campus community; and
- The financial penalisation and further marginalisation of students who have disabilities, who are parents or caregivers, who need to work throughout their studies, or who, for other reasons, do not pursue an institutionally-defined full course load.

Whereas, in 2002, the Code of Student Conduct was revised to allow for dual prosecution; disciplining of students under both the Student Code as well as the Criminal Code; and

Whereas in practice the Code of Student Conduct has been used to silence dissent and to prosecute student activists who are critical of the University's policies, in addition to being a fundamentally flawed document that serves to treat student members of the University community as somehow different from others; and

Whereas the application of the Code can be interpreted as infringing on freedoms of speech, expression and assembly for all students, including our right to protest and oppose the University administration; and

Whereas the Code of Student Conduct was most recently applied against the 'Fight Fees 14', a group given trumped up charges for alleged participation in a peaceful sit-in at the University of Toronto in March 2008; and

communities, the University is simultaneously planning to build elitist aquatic and track and field facilities geared towards training athletes for participation in mega sports events, with financial support from three levels of government; and

Whereas students have called for a drop in fees and for free education, the University of Toronto hopes to impose a student levy to cover the operating costs for these sports facilities, thus compounding the financial barriers for students, especially for students from equity-seeking groups; and

Whereas the advent of the Pan American games will mean a corresponding decline in the quality and quantity of available student space (study space, housing etc); and

Whereas there has been a corresponding decline in investment in and supports for part-time students and for mature students at the University of Toronto; and

Whereas the plans to build the downtown Centre for High-Performance Sports facility involve evicting and displacing the part-time student union from its administrative offices; therefore

Be it resolved that a national campaign to raise awareness on this issue be undertaken and the encroachment of the Pan Am games at the University of Toronto be condemned; and

Be it further resolved that a letter to the University of Toronto administration be sent dissuading them from being involved in making the bid for the Pan Am games by highlighting the adverse impact on students and instead focus their attention on revitalizing academic departments, prioritizing equity and access on campus and implementing measures to reform tuition fees structures; and

Be it further resolved that member locals be encouraged to undertake similar campaigns on their campuses and write letters of condemnation to the University of Toronto administration.

Whereas the Federation seeks to control every aspect of the Referendum on Continued Membership; therefore

Be it resolved that Bylaw 1, section 6, subsection h be amended to read:

**h. Quorum**

Quorum for any referendum vote on continuing membership shall be five percent (5%) of the individual members of the local association.

**2009/11:N35      MOTION TO AMEND BYLAWS**  
Local 21/

Whereas the Referendum Oversight Committee consists of two representatives of the CFS and two members of a local association; and

Whereas the Referendum Oversight Committee often results in a deadlock and delays in referendum process; and

Whereas the delays in the Referendum Oversight Committee have previously forced litigation between member associations and the Federation; therefore

Be it resolved that Bylaw I, section 6, subsection c be amended to read:

**c. Referendum Oversight Committee**

The referendum will be administered by a five (5) person Referendum Oversight Committee composed of two (2) members appointed by the National Executive, two (2) members appointed by the applicable member local association, and one (1) independent neutral third party arbitrator. Within fourteen (14) days following the scheduling of the referendum, the National Executive will appoint two (2) representatives to serve on the Committee and request in writing from the member local association the appointment of two (2) representatives to serve on the Committee. The Referendum Oversight Committee shall be responsible for:

- i. establishing the notice requirement for the referendum in accordance with Section 6,d of this Bylaw and ensuring that notice is posted; and
- ii. approving all campaign materials in accordance with Section 6,f of this Bylaw and removing campaign material that have not been approved; and
- iii. deciding the number and location of polling stations; and
- iv. setting the hours of voting in accordance with Section 6,g,ii of the Bylaw; and
- v. overseeing all aspects of the voting; and
- vi. tabulating the votes cast; and
- vii. adjusting all appeals; and
- viii. establishing all other rules and regulations for the vote.

The independent neutral third party cannot have any previous ties to either organisation involved in the referendum process and will cast the deciding vote in all matters for which the rest of the Committee cannot reach a consensus. Any and all costs of the independent neutral third party will be shared equally between both parties involved in the referendum.

Be it further resolved that Bylaw I, section 6, subsection i be amended to read:

**i. Appeals**

Any appeals of the referendum results or rulings by the Referendum Oversight Committee shall be adjudicated by an appeals committee (the "Appeals Committee") composed of one (1) member appointed by the member local association, one (1) member appointed by the Federation and one (1) independent neutral third party, none of whom are members of the Referendum Oversight Committee.

The independent neutral third party cannot have any previous ties to either organisation involved in the referendum process and will cast the deciding vote in all matters for which the rest of the Committee cannot reach a consensus. Any and all costs of the independent neutral third party will be shared equally between both parties involved in the referendum.

Be it further resolved that Bylaw I, section 7 be amended to read:

**7. Procedure for Application for Withdrawal**

- a. Following the holding of a referendum in accordance with Bylaw 1, Section 6 pursuant to which it is determined that the relevant membership shall not continue, the applicable member local association will provide a letter in writing notifying the Federation of its intention to withdraw from the Federation. Within thirty (30) days of the receipt of such letter, the National Executive will make a recommendation to the voting members of the Federation concerning the withdrawal.
- b. At the opening plenary of the next general meeting of the Federation, ratification of the withdrawal shall be put to a vote.

- a. For the purposes of this section, "extraordinary transaction" means any financial transaction that arises outside of the usual and predictable operations of the Federation, and includes:
  - i. any transaction that is unbudgeted; and
  - ii. any gift or loan to a provincial component or student association over \$1,000.
- b. Any extraordinary transaction shall be approved by the National Executive. This approval shall not be delegated.
- c. The details of any extraordinary transaction shall be reported to the members in the National Executive Report under Bylaw V, 2(f).

Whereas the presentation of Consolidated Financial Statements for both the Canadian Federation of Students (CFS) and its subsidiary the Canadian Federation of Students -- Services (CFS-S) represents a significant departure from Canadian generally accepted accounting principles; and

Whereas this fact is recognized explicitly in the CFS' own audited financial statements; and

Whereas the above-mentioned consolidation impairs the ability of the Canadian Federation of Students to credibly maintain its stated position that the CFS and CFS-S are separate companies; and

Whereas the consolidation of finances may tend to obscure important differences in spending patterns between the two organizations, especially in regards to legal disbursements, payments for salary and professional services, and inter-organizational transfers; therefore

Be it resolved that Standing Resolution 24 be amended to include as point 1 the following text:

1. The financial statements of the CFS and CFS-Services shall be presented to the membership as segregated, non-consolidated documents, in line with Canadian generally accepted accounting principles.

Whereas the full range of salaries and benefits of both employees and national executives of the Federation are not currently available to members of the public, to member locals, or to individual members of the Federation; and

Whereas the salaries and benefits of both employees and national executives of the Federation is of concern to members of the Federation, since it is student money that is paying for these salaries and benefits; and

Whereas in many other similar organizations, the salaries and benefits of the employees and elected representatives are disclosed to its members; and

Whereas it was long standing past practice of the Federation to provide longitudinal information regarding staff salaries at general meetings; and

Whereas the Federation's organization must be evaluated to consider its non-disclosure of salaries and benefits; and

Whereas it is an obvious conflict of interest to allow elected officials of the Federation to supplement their current honoraria (greater than \$44,000 per year after inflation indexing, plus health and dental) for performing 'services for the Federation' of an undisclosed nature, which services may include selling products to member locals; and

Whereas the Federation's Executive should not be distracted from their full-time obligation of lobbying for the Federation by obligations to the organization's commercial component; and

Whereas Bylaw V(14)b,

*"Should any member of the National Executive be employed by or perform services for the Federation other than as a member of the National Executive, or be a member of a firm or shareholder, director or officer, of a company that is employed by, or performs services for the Federation, this shall not disentitle such member of the National Executive or such firm, as the case may be, from receiving proper remuneration for such services."*

creates reason to be suspicious of the amount of remuneration distributed by the Federation in the last 5 years, particularly when combined with recent National Executive activities vis-à-vis securing service contracts between member unions and the Federation; therefore

Be it resolved that Bylaw V, section 14, subsection b be amended to read:

**14.      National Executive Remuneration**

- b.    The National Executive shall not be allowed to receive any remuneration from the Federation, nor from any of its subsidiaries apart from that already provided for in bylaw V(14)a and its subordinate clauses.

Be it further resolved that Bylaw V, section 14, subsection c be added to read:

- c.    The National Executive shall be required to separately disclose all salaries and benefits received from any entity that is employed by, or performs services for the Federation. All such disclosures shall be included in the Federation's annual financial statements and distributed at the semi-annual general meeting.

Be it resolved that the following text be included in Standing Regulation 29

The salaries and benefits of all executives and employees of the Federation will be disclosed on an annual basis to all individual members and locals of the organization upon request, and shall be included as separate line items in the financial statements presented at the semi-annual general meetings of the federation

Whereas it is only reasonable that individuals working at student groups, funded by student money, earn student wages; and

Whereas the CFS National Executive are charged with advancing a "Raise the Minimum Wage" campaign; therefore

Whereas there is no danger associated with presenting on the Federation's website the fees levied from its members; and

Whereas member associations need to know what the Federation believes the fees it is due actually are on a yearly basis since the fee changes on an annual basis; therefore

Be it resolved that the Operating Policy entitled "Financial Policy Relating to the Collection of Membership Fees" be amended to include:

The Federation's membership fees including those of the National and provincial components shall be posted on the Federation's website in the 'About' section. The Federation shall send a registered letter to each member association indicating the applicable membership fee, and the letter shall be sent in a timeframe which guarantees each member sufficient time to ensure that the correct fee is levied. Whereas Federation general meetings do not discuss anything of a nature such that it should be obscured from the attention of its individual members; and

Whereas exposing the Federation to media scrutiny may help inform the individual members, thereby allowing them to hold the organisation accountable for the organization's use of their membership fees; and

Whereas such scrutiny would serve either to reign in the litigious nature of the Federation Executive branch, or to justify such legal expenses as are incurred through a clear airing of the cause behind them; and

Whereas such scrutiny can only help increase the transparency of the organisation and its actual lobbying activities; and

Whereas media scrutiny might encourage the Federation, its staff members, and its elected officials from systematically disenfranchising its members by applying procedural and rhetorical road blocks; and

Whereas the New Democratic Party had 23 journalists at its last national meeting; therefore

Be it resolved that the Operating Policy entitled "National General Meetings" be amended to include a new section that reads:

**Press**

All general meetings of the Federation shall be completely open and free to members of the press. Members of the press that are not part of an official delegation shall simply be required to keep visible a Federation supplied badge identifying them as a member of the press.

Whereas no fundamental documents are available for CFS-Services or its subsidiary companies; and

Whereas it is impossible to verify questions of ownership and proper methods of reform without access to such materials; therefore

Be it resolved that the Bylaws, Letters Patent, Standing Resolutions, Operating Procedures, past five years' audited financial statements, and any and all other fundamental documents for each of the CFS, CFS-Services and their respective subsidiary organisations, be posted on the CFS website, in an obvious and easily located section, and updated as soon as possible after the changes to the documents have taken effect.

Whereas contracts awarded to the Federation for rendering its products and services to member locals are far too rarely subject to committee review, and are far too rarely subject to the standard procedures of open-bid tendering which would force the Federation to ensure competitive pricing and efficient delivery of its products and services; and

Whereas the Federation has opposed these types of contracts on University campuses across Canada in terms of Food Services; and

Whereas the Canadian Federal Government uses the Standard Acquisition Clauses and Conditions (SACC) for contracts exceeding \$25,000; and

Whereas failure to engage in open tendering procedures has resulted in a perception, right or wrong, that CFS tends to be unable to compete with its private-sector substitutes; and

Whereas the regular use of un-tendered contracts has led to serious questions being raised as to the integrity of CFS' relation to its member locals, and may serve to damage the goodwill and reputation of partner organizations; therefore

Be it resolved that the following text be included in the CFS bylaws:

"The Federation shall never accept the awarding of a contract in which it or its partner organizations are to be paid for the delivery of services or products when the process of awarding the contract did not include a well advertised, open-bid tendering process with the selection of the service or product provider made by committee of no less than three individuals."

**a. Adherence to Bylaws and Policies**

The Federation's failure to adhere to its Bylaws, Operating Policies, Standing Resolutions, and Issues Policies in any of its day-to-day operations, shall constitute grounds for removal from office of any of the at-large National Executive.

Be it resolved that an ad-hoc committee entitled "Federation Committee to Establish Conflict of Interest Policy and Procedures" be struck immediately to produce a comprehensive set of regulations for the Federation to manage conflicts of interests; and

Be it further resolved that the committee be composed of thirteen (13) individual members of the Federation, one from each province and territory, none of whom may have held any position whatsoever within the Federation for the past five (5) years, and who are to be appointed by lottery (a separate lottery for each provincial and territorial seat) during the closing plenary of this, November 2009, general meeting; and

Be it further resolved that the committee chair shall be selected by lottery of the members of the committee wishing to be included for consideration as chair; and

Be it further resolved that the committee shall table a report consisting of proposed policy and procedures (e.g. Bylaws, Standing Resolutions, and Operating Policy) necessary to manage conflicts of interest. Be it further resolved that a new Bylaw be adopted to read:

**Board of Directors**

The corporate affairs of the Federation will be managed by two distinct boards of directors, one from the CFS and one for the CFS Services

- i. The boards of directors of the CFS and CFS-Services shall be elected separately, by secret ballot, at the annual general meeting of the CFS.
- ii. The boards of directors of CFS and CFS-Services shall have no more than 20% of their membership in common.
- iii. Notices of elections to the CFS Board of Directors, the CFS-Services Board of Directors, and the Board of Directors of any of CFS/CFSS' subsidiaries be publicized at least six weeks in advance of the election, both on the CFS website and in emails to all member locals.
- iv. Notice of elections to the CFS Board of Directors, the CFS-Services Board of Directors, and the Board of Directors of any of CFS/CFSS' subsidiaries contain information regarding the procedure and timing of elections, the nomination process and the eligible voters.

Be it further resolved that the following preamble in Bylaw V be removed:

Be it further resolved that a new Bylaw be adopted to read:

**Judicial Board**

- i. CFS and CFS-Services shall have a joint judicial board consisting of five (5) members, none of which may hold any other position whatsoever within the CFS(-Services), its subsidiaries or partners (including elected, employment, or appointed positions) or have held such a position within the last 5 years
- ii. The joint judicial board shall have the exclusive power of beginning, ending, and continuing any legal actions and/or responses taken by the CFS(-Services), and shall have exclusive authority over allocating money from any and all legal budget lines in the CFS(-Services) budget
- iii. The joint judicial board shall be appointed by lottery at the CFS(-Services) annual general meeting with nominations of names to be included in the lottery requiring the endorsement of two full member locals of the CFS(-Services). Subsequent to the lottery for selecting the board's members, those selected may elect to advance their name for inclusion in a lottery to select the chair. The lottery for the chair position shall be held immediately after the lottery selecting the board's members. If no candidate name is advanced for this lottery, the lottery for chair shall proceed including all of the members.
- iv. The term of office of a member of the joint judicial board shall be the same as the at-large National Executive, and removal from office for a member shall follow the same procedures as for the National Executive
- v. The lottery for the members of the CFS Judicial Board shall be carried out at the plenary, in such a way that it is clearly evident that the selection was free from tampering
- vi. An individual delegate to the CFS annual general meeting shall have the right to challenge the legitimacy of any selection process, after which challenge they shall be permitted to examine the lottery ballots in order to ensure that the process was carried out in a fair manner.

Whereas ties between the New Democratic Party of Canada and the Canadian Federation of Students are strong and have persisted throughout the years; and

Whereas an interest group that is mandated to lobby the government on behalf of students cannot overtly endorse or otherwise support any single political party, lest it sacrifice its relationship with other political parties; and

Whereas the CFS has given implicit support to the NDP by issuing 'Report Cards' in provincial and federal election campaigns that rate each political party, and in doing so has consistently ranked the NDP as the best political party; and

Whereas this perception of unofficial partisan affiliation may help explain why the CFS has been unable to produce results in its campaigns to 'lower tuition fees' throughout all the many years of its operation, for example with tuition fees rising consistently since the CFS has initiated its drop tuition fees campaign; and

Whereas making public an official policy of the CFS as being completely non-partisan will help restore some of the neutrality of the CFS, and will therein restore its credibility as a lobby group, rather than as a crutch for the NDP; and

Whereas doing so will also make the CFS more representative of the ideological diversity of its constituents; therefore

Be it resolved that the following text be included in the CFS bylaws:

"Unless otherwise directed by plenary, throughout every federal and provincial election, the CFS will release a public statement which states that without question the CFS does not endorse or support any political party. In addition, the CFS will maintain a similar

statement on its website which states that the CFS does not endorse or support any political party in Canada."

Whereas the Federation's Bylaws, most notably Bylaw I(6j), provide a direct mechanism for the disenfranchisement of individual members should the individuals' union fail to remit their Federation membership dues in a timely manner; therefore

Be it resolved that Bylaw X, section 4, subsection d be added:

- d. Outstanding membership dues may never be used as pretext for preventing individual members from exercising their right to hold a vote on continued membership in the Federation.

Be it further resolved that Bylaw X, section 4, subsection e be added:

- e. Any outstanding membership fees not collected after a period of five (5) years shall be forgiven by the Federation. Any contracts or agreements relating to membership fees that have failed to be collected after a period of five (5) years shall become null and void.

**MOTION TO AMEND STANDING RESOLUTIONS**

Local 79/

Whereas there is limited time during the Federation annual and semi-annual plenary sessions for individual members to make themselves heard;

Whereas decisions respecting the business of the Federation should be centred on the input and positions of its member locals, as expressed through their respective delegations;

Whereas it behoves the Federation to provide pride of place in speaking order to members of the Federation; therefore

Be it resolved that Standing Resolution 3, section 3 be amended to include a new point d to read:

- d. Members of the national and provincial executives shall only be permitted to speak at plenary in the event that no individual delegate wishes to address plenary on the issue at hand. If, after the national executive have begun speaking, a delegate wishes to speak, they may take precedence over any further members of the national executive.

Be it further resolved that Standing Resolution 3, section 3 be amended to include a new point e to read:

- e. National and provincial employees shall only be permitted to speak at plenary in the event that no delegate or member of the national executive wishes to address plenary on the issue at hand and only for clarification or informational purposes.

Be it further resolved that Standing Resolution 3, section 3 be amended to include a new point f to read:

- f. The speaking order for the national plenary will apply to all committee meetings, constituency groups, and caucuses touching upon business deriving from or destined for the plenary itself.

Be it further resolved that Standing Resolution 3, section 4 be amended to include the following:

Nothing in this section will be construed as limiting speaking priorities set out in Standing Resolution 3.3.

Be it further resolved that Standing Resolution 4, section 4 be amended to read:

"The priority rules set out in Standing Regulation 3.4 shall govern the operation of all workshops."

**4. Speaker Priority on Workshop Motions**

The priority rules set out in Standing Regulation 3.4 shall govern the operation of all workshops.

**2009/11:N66 MOTION TO AMEND BYLAWS**

Local 79/Local 26

Whereas the Federation disaffiliation procedures are subject to a great deal of criticism; and

Whereas the Federation's policy on membership at its founding was to permit member student associations to hold referenda to decide questions of membership based on the rules set out by these respective organizations; and

Whereas although over the past 30 years, the Federation's disaffiliation procedures have been altered a number of times, it has uniformly been altered in the direction of more stringent restrictions on disaffiliation; and

Whereas the rules appear designed to force members to maintain their membership, and perpetuate the widespread but mistaken belief that if it weren't for these rules, the Federation would have no members at all; therefore

Be it resolved that Bylaw I, section 6 be repealed and replaced with:

**6. Referendum of Continued Membership**

- i. A vote for a member student association to disaffiliate from the Federation and its provincial component shall be initiated and administered pursuant to the referendum provisions of an individual member local's constitution and/or bylaws
- ii. The Federation, its staff, elected officials, and provincial components shall not interfere in the disaffiliation process, or to provide any material or human resource support to the member student association or its individual members during the campaign or voting

Be it further resolved that Bylaw I, section 7 be repealed and replaced with:

**7. Procedure for Application for Withdrawal**

- i. Upon receipt of a letter from the head of a member student association informing the Federation that it has successfully held a referendum to defederate from the Federation, the National Executive shall accept the termination of membership, and send the member local a letter of well wishes and ask that they not close their mind to future work with the Federation should the occasion arise

**2009/11:N67 MOTION TO ADOPT POLICY**

Local 79/Local 26

Whereas Federation meetings do not discuss anything of a nature that should be kept behind closed doors from members of the Canadian Federation of Students; and

Whereas recording Federation meetings may help restrict the volume of litigation to which the CFS has engaged in and will engage in, in the future; and

Whereas recording Federation meetings may encourage the organization and elected officials from systematically disenfranchising its members by applying procedural and rhetorical road blocks; and

Whereas recording Federation meetings will ensure that decisions it makes collectively will be implemented in such a way that is consistent with the decisions made by voting members at the general meetings of the organization; and

Whereas recording Federation meetings will ensure that meeting minutes accurately reflect events within minutes, and that challenges to meeting minute contents will not be subject to arbitrary rulings; therefore

Be it resolved that the Operating Policy entitled "National General Meetings" be amended to include a new section that reads:

**Recordings**

All Federation meetings including plenary, committee meetings shall be audio recorded and archived at the Federation national office. All recordings shall be available to individual members for inspection upon written request.

**2009/11:N68 MOTION TO AMEND BYLAWS**

Local 79/

Whereas a significant number of member locals have failed to successfully hold referenda within the time specified in Bylaw I(2)b, yet have not been removed from the ranks of prospective membership; and

Whereas members should have to follow the same procedures to become members of the federation as to leave the federation; therefore

Be it resolved that Bylaw I, section 2 be repealed.

**2009/11:N69 MOTION**

Local 79/

Whereas Standing Resolution 31, passed by the national plenary in November 2007 as an emergency motion in response to an injunction on the activities of the Quebec provincial component; and

Whereas the temporary injunction was lifted only a few months subsequent to the passage of Standing Resolution 31, and no person has ever been elected to fill any of the roles set out in Standing Resolution 31; and

Whereas Standing Resolution 31 has consequently never existed in a functional sense;

Whereas the Quebec member student associations never expressed any intention nor voted for the purpose of a) dissolving CFS Quebec, or b) transferring the provincial component's fee levy to the control of the national organization; and

Whereas the CFS National Executive interpreted Standing Resolution 31 in order to usurp the fee owed to the Quebec provincial component, despite the repeated objection of a majority of the member student associations in Quebec; and

Whereas at least three quarters of the member student associations within the province currently oppose the above actions of the National Executive; and

Whereas a previous attempt to rescind Standing Resolution 31 at the May 2009 was curtailed, partly as a result of the actions of Federation staff who were granted speaking rights while the motion Movers and Seconders were denied the right to speak; and

Whereas the current Deputy National Chairperson was recently responsible for an attempt to dissolve the eleven (11) year old CFS-Quebec (the not-for-profit corporation) without the support or knowledge of the member student associations of the province; and

Whereas it is the stated desire of at least three-quarters of the province's member student associations that the CFS-Quebec continue to represent them at the provincial level and that their current, duly elected, National Executive Representative be recognized by the CFS National Executive; and

Whereas CFS-Quebec, is currently subject to legal threats by the CFS National; and

Whereas the continued disenfranchisement of member student associations within the province is one of the primary factors underlying the desire of many students to disaffiliate from the CFS; therefore

Be it resolved that Standing Resolution 31, relating to the Quebec Component of the Federation, be rescinded immediately in accordance with the desire of a super-majority of the member associations in Quebec.

**2009/11:N70 MOTION**

Local 79/Local 26

Whereas the campaigns of the Federation have in many cases remained exactly the same for decades; and

Whereas the priorities of students are not static over time; and

Whereas the Federation's decades-old approach to federal-provincial relations is out of date, and ignores not only the distribution of powers set out in the constitution of Canada, but also 30 years of developing federal-provincial relations; and

Whereas lobbying policy that is not grounded in a realistic view of Canadian federalism will not be taken seriously by the federal government; and

Whereas the CFS National Chairperson has thus far proved incapable of explaining the organisation's understanding of a proposed national education act; therefore

Be it resolved that an ad-hoc committee entitled "Federation Campaign Re-Evaluation Committee" be struck immediately to examine the campaigns of the CFS, and to make recommendations regarding the modernization of Federation Issues Policy, priorities, and campaigns; and

Be it further resolved that the committee be composed of thirteen (13) individual members of the Federation, one from each province and territory, none of whom may have held any position whatsoever within the Federation for the past five (5) years, and who are to be appointed by lottery (a separate lottery for each provincial and territorial seat) during the closing plenary of this, November 2009, general meeting; and

Be it further resolved that the committee chair shall be selected by lottery of the members of the committee wishing to be included for consideration as chair; and

Be it further resolved that the committee shall table a report on the strengths and weaknesses of each campaign and policy of the Federation, and providing recommendations for the improvement or repeal of each campaign and policy. This report shall be tabled at the next general meeting and shall be received by member associations a minimum of six (6) weeks in advance of that meeting.

Whereas there are currently no clear means by which the member locals of the Federation can determine whether the National Executive is successfully doing its job; and

Whereas it will help to orient the organisation for the National Executive to be obliged to meet concrete targets for performance; therefore

Be it resolved that an ad-hoc committee entitled "Federation Committee for the Establishment of Success Metrics" be struck immediately for the purpose of drafting a series of guidelines and criteria for measuring and monitoring the performance of the National Executive; and

Be it further resolved that the committee be composed of thirteen (13) individual members of the Federation, one from each province and territory, none of whom may have held any position whatsoever within the Federation for the past five (5) years, and who are to be appointed by lottery (a lottery for each provincial and territorial seat) during the closing plenary of this, November 2009, general meeting; and

Be it further resolved that the committee chair shall be selected by lottery of the members of the committee wishing to be included for consideration as chair; and

Be it further resolved that the committee shall produce a set of regulations (e.g. Bylaws, Standing Resolutions, Operating Policy) and an accompanying report detailing the implementation of performance metrics and progress tracking for the National Executive, for consideration at the next general meeting. These deliverables shall be received by member associations a minimum of six (6) weeks in advance of that meeting.

**MOTION TO AMEND BYLAWS**

Local 79/

Whereas individual, fee paying, members of the CFS are largely disenfranchised because they have no direct mechanism to hold the CFS accountable, or to directly access its governance structure; therefore

Be it resolved that a new Bylaw be created:

**BYLAW**

- a. A petition signed by no less than five percent (5%) of the individual members from a single member student association, or no less than one percent (1%) of all CFS individual members, whichever is less, shall be sufficient for the following purposes:
  - ii. Submitting a motion for consideration at a general meeting
  - ii. Providing a designated individual the right to move a motion, as set out in the petition - such a designated person shall be granted the right to participate in all discussions concerning motions that they have presented for consideration within

any and all bodies convened or called to order during a general meeting (e.g. committees, working groups, plenaries, etc.)

- ii. Submitting a text of no more than 1500 words in either official language to be translated and included in the materials distributed to all participants in the next general meeting. The text shall additionally be read out at the beginning of the opening plenary by an individual designated in the petition
- ii. Any individual designated to present motions to the national meeting shall be exempted from costs charged to delegates of individual member student associations.

**2009/11:N73 MOTION TO AMEND BYLAWS**

Whereas it is highly improper for the Federation to directly impose or modify membership fees levied upon its individual members without the explicit consent of these self-same individual membership;

Whereas the Federation opposes inflationary increases in tuition and ancillary fees;

Whereas the Federation's Issues Policy entitled "Ancillary, Auxiliary, Incidental and Administrative Fees" opposes, "...any compulsory student fee or fee increases that is not set by general student referendum or through students' union approval";

Be it resolved that Bylaw I(2)a.vii be amended to read as follows:

"Beginning in 1996, the Federation membership fee shall increase on August 1 each year by the rate of increase in the national Consumer Price Index during the previous calendar year.

Notwithstanding the foregoing, this regular fee increase shall not be construed as affecting those member student associations which have not sought and received the approval of the individual members for such a regular increase."

**2009/11:N74 MOTION TO AMEND BYLAWS**

Local 79/Local 26

Whereas the Canadian Federation of Students currently does not permit individual members to opt out of fees to its national and provincial organizations;

Whereas it is the policy of some CFS member student associations to provide their respective individual members with the opportunity to opt out of ancillary students' union fees;

Whereas voting membership in the CFS does not show regard for the number of individual members represented by a member student association;

Whereas many individual members of the Federation maintain significant reservations as to the political stances adopted by the national organization, and should be accorded the right not to subsidize political views to which they are opposed;

Whereas the ability to opt out of membership fees is an option supported by hundreds of student organizations across the country (e.g. PIRGs, student newspapers, student radio stations) for the purpose of ensuring accountability of an organization to the wishes of its members;

Be it resolved that the Federation's bylaws be amended to include Bylaw I.2.ix, to read as follows:

"Individual members of the Federation shall be permitted to opt out of their portion of the Federation's fee, providing that they provide to their respective member student association notice in writing of their intention to do so, such notice to be provided within 30 days of the beginning of the semester."

Whereas there is currently limited opportunity for the general plenary to discuss issues of concern; and

Whereas an Increase in the opportunity for frank and un-moderated exchanges in views would provide delegates with a greater opportunity for developing their own vision for the proper future direction for the organization; therefore

Be it resolved that the Operating Policy entitled "National General Meetings" be amended to include a new section that reads:

**Open Discussion**

One (1) hour before lunch and one (1) hour before dinner shall be set aside during each day of a General Meeting for free-form, break-out discussions and brainstorming sessions amongst General Meeting delegates.

Whereas Federation member student associations are intended to be sovereign entities, separate from the Federation hierarchy and governance structure;

Whereas the Federation is regularly involved in the governance of locals (e.g. The former National Deputy Chair sitting as the Chair of the Concordia Student Union while serving as the CFS Deputy National Chairperson);

Whereas the President of the York Federation of Students participated in the CFS affiliation referendum of the Students Federation of the University of Ottawa instead of working to represent the interests of his members during a labour relations crisis at York University;

Whereas this sort of participation in local politics impedes a student association's ability to act objectively with respect to its relationship to the CFS and invariably results in conflicts of interests within student associations on issues relating to service and CFS membership;

Be it resolved that Bylaw V be amended to include the following section:

**Bylaw V (15)**

"No member of the National Executive may participate in any capacity in any member student association's governing structures or associated bodies.

"All elected officials shall sign an agreement precluding them from participating in a student association or in the student media in any capacity for a period of two years after they have ceased to be a CFS official."

Whereas the Federation needs serious criteria with which to select its anti-harassment advisor; therefore

Be it resolved that the subsection "Anti-Harassment" of the Operating Policy entitled "National General Meetings" be amended to read:

**Advisor**

The Federation shall retain for the duration of all general meetings the services of a Harassment Advisor who will be available on a 24-hour basis. The Advisor shall be an experienced professional in dealing with incidents of harassment and sexual harassment, shall possess formal training in peer support, advocacy and active listening, have at minimum a bachelor's degree in a related field, and a minimum of five (5) years of demonstrable employment experience in a related field.

The Advisor shall be available year-round to serve on Harassment and Grievance or Appeals committees, as per the remainder of this policy.

- d. nominees shall have access to interpretation throughout the nominees' forum.

**b. Motion Submitted by Provincial Components**

2009/11:N88      **MOTION TO ADOPT POLICY**

Be it resolved that the following Issues Policy on "Public Transportation" be amended to add:

**2. Universal Transit Pass (U-Pass) Programs**

**Preamble**

Transit systems should be designed to provide affordable public transit to all citizens and should focus on creating systems that are equally accessible to all citizens. As a means of working toward this, bulk purchasing programs known as Universal Transit Passes (U-Pass) have been developed by transit authorities and universities and colleges across Canada. Depending on service and funding levels, U-Pass programs can either be progressive instruments that increase transit access to members, or regressive tax shifts that use students to subsidise under-funded transit systems.

**Policy Statement**

The Federation supports U-Pass programs as a means of providing increased accessibility to public transit to members at a reduced cost, with the following guiding principles:

**a. Democratic Decision-Making**

The terms and conditions, including price, should be set through negotiations between governments/transit authorities and students' unions and subject to ratification by union membership.

U-Pass contracts with governments/transit authorities should include a clause stipulating that all proposed increases to the U-Pass fee shall require membership approval via a referendum conducted by the students' union—notwithstanding the right of faculty, staff, and administrators to conduct their own democratic vote to participate in and raise fees for the U-Pass program.

**b. System Input**

U-Pass agreements should include mechanisms for students, through their students' unions, to have input into transit system operations, funding, design and planning as they relate to campus-specific transit services.

**c. Institutional Support**

In constructing U-Pass agreements, students' unions should endeavour to include their respective university or college as sponsors of the U-Pass such that any savings realized by institutions from reduced parking facilities and increased parking fees are passed on to students in the form of a subsidy to the U-Pass program. Institutional subsidies should be on a percentage basis.

**d. Access**

U-Pass agreements should prioritize affordable access to transit services and should identify free public transit in all of BC as a long-term goal of U-Pass programs.

U-Pass agreements should have opt-out clauses for members who live and work outside the transit service region and who have a minimal on-campus course-load.

**e. Universality**

U-Pass programs should be campus-wide and include agreements with all faculty, staff, students and administrators. Additionally, programs in the same region/area should not discriminate in price, service, or contractual obligations of the program based upon which institution one attends.

**f. Collective Bargaining**

In relation to universality, the Federation supports students' unions working together to collectively bargaining universal U-Pass agreements for their members in a given region/area. The Federation believes solidarity in collective bargaining is the only way to support the needs of all members.

**g. Portability**

Transit systems hosting a U-Pass program should provide free access to U-Pass holders of other transit systems in BC to create a network of access to public transit for all U-Pass holders in the province.

**h. Long-Term Goal**

Notwithstanding the existence of U-Pass agreements, the Federation will continue to campaign for a fully funded, public, province-wide system of transit provided to all citizens at no cost. Funding for transit should be provided through a progressive taxation system as opposed to user fees or private advertising, which are regressive forms of funding for a public service. U-Pass programs are not systems of taxation. As funding through taxation increases for public transit, U-Pass fees should be reduced along with all other forms of user fees.

**MOTION TO AMEND POLICY**

/

Be it resolved that the Issues Policy "Technology" be amended to read as follows:

**Technology**

**Preamble**

The Federation recognizes that technology plays a vital role in students academic and personal lives and has the ability to have both a positive and negative affect on the academic experience.

**Policy**

The Federation supports:

- the use of open source and free software at post-secondary institutions

The Federation opposes:

- the use of technology to censor access to the Internet;
- the purchase of hardware and software that lock the institution into long-term contracts with proprietary vendors to the exclusion of alternatives;
- additional student fees charged for technology;
- the use of technology to replace teachers and teaching assistants' labour; and
- forcing students to purchase technology in order to participate in an academic program

2009/11:N90

**MOTION TO AMEND POLICY**

/

Be it resolved that the Issues Policy "Student Support Services" be amended to read as follows:

**Student Support Services**

**Policy**

The Federation supports:

- the provision, at no additional costs to students, of support services that include, but are not limited to:
  - athletic facilities;
  - emergency food banks;
  - financial aid and assistance offices;
  - health, psychiatric, and psychological services;
  - high-quality on-campus childcare;
  - human rights and equity services;
  - legal, employment and tenant's rights counselling;
  - on-campus housing and housing support services;
  - personal advising and counselling;
  - services for Aboriginal students;
  - services for international students;
  - services for students with disabilities;
  - sexual assault support services ; and

- transportation between campuses; and
- the availability of services with regular hours of operation that are accessible to all students.
- the adequate provision of funding by government student support services

The Federation opposes:

- the provision of services by academics institutions when they are operated in competition with services offered by students' union; and
- the use of ancillary or other institutional fees to fund the provision of student support services.
