“If the combined power of all of us and all organizations were exerted as a shoulder to shoulder effort, we would take this planet just as we are and with no more than we know.” — LRH Quote from HCO PL 29 Oct. 59, SERVICE

The public level of recognition, awareness and acceptance for Dianetics and Scientology is higher than at any other time in our history. There has never been a more opportune time for your org to be reaching out with the tech and taking full responsibility to clear your community.

In order to help your org realize its full expansion potential, a new program was just launched as part of the New Era of Management by International Management to establish Clear Expansion Committees in every area with the purpose of activating, coordinating and expanding all field groups and activities within their zone of responsibility.

By uniting the efforts of your active field — and increasing them — broadscale dissemination and delivery of the tech will be accomplished at a much greater rate.

In HCO PL 26 February 1991, THE ORGANIZATION OF THE PUBLIC DIVISIONS, LRH says: "If an organization had a field of ten or fifteen thousand Scientologists, hatted and knowing which way Scientology was going and if the organization was exerting some leadership over the field through the Public Divisions, the org would be in clover."

To put your org in clover and rapidly expand up to Saint Hill size and beyond, you must first organize and channel the tremendous resources that you do have in your field and get all Scientologists taking an active role in expanding the dissemination and delivery of the tech in your community.

Being a member of the Clear Expansion Committee does not in any way change the individual activities of its members. For example, while your OT Committee Chairman is an active member of the Clear Expansion Committee, he is also responsible for the activities of the OT Committee. He musters up your Clears and OTs and gets them actively working on projects to get all Scientologists in the area on service. Your Auditors Association Secretary is part of the Clear Expansion Committee while at the same time getting the auditors in your field to do their Auditor Revitalization programs and get onto their Golden Age of Tech training line-ups.

LRH provided the technology for building a new civilization. Your org and the individual Scientologists in your field, working together to get the tech applied as part of the Clear Expansion Committee, are the vehicle to bring this about.
